Securitization Market Balances Survey Report  
(September 30, 2017)

This report compiles together the outstanding balances data of Japanese securitization products from two sources. The first source is the balances data of the securitization products covered by “Securitization Market Trends Survey.” The second source is the residential mortgage-backed securities (RMBS, comprised of “JHF Monthly MBS” and “S-series MBS”) balances data of the Japan Housing Finance Agency (JHF).

In addition, please refer to an attached sheet for the numerical data used in a chart.

1. Outline of Survey Results

The outstanding balance of the securitization product market continued to increase, totaled ¥18,380.9 billion, up ¥442.2 billion, up 2.5%, from the previous survey (March 31,2017).

This figure reflects the recent increasing of the securitization products’ issuance amount.

2. Balances by underlying asset

The outstanding balance of “RMBS” (comprised of “JHF RMBS” and “excluding JHF RMBS”) continued to increase, totaled ¥16,096.3 billion and accounted for 87.6% of the total outstanding balance. (The outstanding balance of “JHF RMBS” amounted to ¥12,415.6 billion and accounted for 67.5% of the total outstanding balance.)
The amount of "Shopping credits" continued to maintain a high level second only to RMBS and totaled ¥1,239.0 billion, accounting for 6.7% of the total.

Notes for the Survey

1. Issuance dates
   (i) JHF RMBS
       All existing JHF RMBS (including Government Housing Loan Corporation Mortgage-backed Securities) are covered by this survey.
   (ii) Securitization products other than JHF RMBS
       Securitization products reported by the “Securitization Market Trends Survey”\(^1\) (issues made since April 2004).

2. Coverage
   (i) Reporting is voluntary.
   (ii) Issues securitized through programs including asset-backed commercial paper are not covered.
   (iii) Issues that used the derivative format or loan format\(^2\) are covered when more than one tranches of either securities or trust beneficiary rights are included in the issues. (If only the loan format is used, the issue is not covered.)

3. Others
   (i) In the case of securitization products with trust beneficiary rights as their underlying assets, in principle, only the reported securitized products are covered; the underlying trust beneficiary rights are outside the scope of coverage.
   (ii) Products that have reached their final legal maturity date are deemed to have no balance.
   (iii) In the case of securitization products issued during the base month for reporting, issuance amounts are considered as balances in basic date.
   (iv) We reviewed some of the underlying assets classification from a survey based on September 30, 2016. Please refer to the "Explanation Materials” in the attachment for details.

Note 1: The survey was conducted by Bank of Japan from May 2004 to March 2006 and has been conducted by the Japan Securities Dealers Association (JSDA) and the Japanese Bankers Association (JBA) since April 2006.
Note 2: Asset-backed loans (ABL)
